SUBSTANTIAL SIMILARITIES

	TERRA INCOGNITA	AVATAR
PREMISE	Terra Incognita was animated as a computer generated action adventure depicting a world in the future with events and elements that shape a story combining mythology, ancient astronomy and legends. With a classic hero's quest to explore different cultures and actual mythological figures Terra Incognita is an adventure as well as a story with a message.	Avatar is animated with computer-generated characters by using motion-capture animation technology. Taken from Wikipedia, Avatar is an old-fashioned jungle adventure [set in the future] with an environmental conscience [that] aspires to a mythic level of storytelling.
STORYLINE	<p>The film is set in the future on a distant blue Earth-like planet, Terra Incognita. Earth's existence is threatened. Astronauts, scientists, and the military were sent to the planet to acquire Intel and to mine the planet's reserves for a precious mineral. The indigenous people resist the colonists' expansion, which threatens the continued existence of the people and their ecosystem.</p> <p>“...you had come looking for treasure, and here..on Innead there is no greater treasure than ergonite” Terra Incognita pg. 72</p>	<p>The film is set in the future on a distant blue Earth-like planet, Pandora. Earth's existence is threatened. Astronauts, scientists and the military were sent to the planet to acquire Intel and to mine the planet's reserves for a precious mineral. The Na'vi — a race of indigenous humanoids — resist the colonists' expansion, which threatens the continued existence of the Na'vi and the Pandoran ecosystem.</p> <p>“...This is why we're here. Unobtanium. Because this little gray rock sells for twenty million a kilo.” Avatar 2007 Screenplay pg. 16</p>
PLANETARY LIFE	The indigenous people, plant life and animal life are philosophically and biologically intertwined. They believe in respect of mother earth and that all of the planet and animal life are connected. The indigenous people communicate with the animals and nature, believing all are equal.	The indigenous people, plant life and animal life are philosophically and biologically intertwined. They believe in respect of mother earth and that all of the planet and animal life are connected. The indigenous people communicate with the animals and nature, believing all are equal.
PLANETARY COMPOSITION	<p>Terra Incognita appears dark blue. “look to the blue to discover all that you shall ever need” Terra Incognita pg 69 “and it looked blue from earth” Terra Incognita pg 70. “Now it all makes sense that Terra Incognita appears dark blue because of the orgonite” Terra Incognita 203</p>	<p>“A blue and surprisingly Earth-like world called PANDORA. The ship dwindles to a speck against the BLUE MOON”. “Avatar 2007 Screenplay pg. 6</p>
	<p>Terra Incognita has a magnetic source that affects transmissions of earthling's technology.</p> <p>“... that the loss of contact could be related to the strange magnetic readings that NASA has analyzed previously. Professor Morph surmises that Terra's heat and light sources are magnetically generated from within thus creating a magnetic barrier that disrupts radar transmissions of any sort.” Terra Incognita pg 204</p>	<p>Pandora has a magnetic source that affects transmissions of earthling's technology.</p> <p>Grace “See these magnetic formations. We're getting close.” Avatar 2007 Screenplay pg. 57</p> <p>Trudy “Yeah we are. Look at my instruments on the dash, many of the displays are fritzing out.” “Avatar 2007 Screenplay pg. 57</p>
